Common Disaster Types	Cyclones, Heatwaves, Drought

2. Location Map

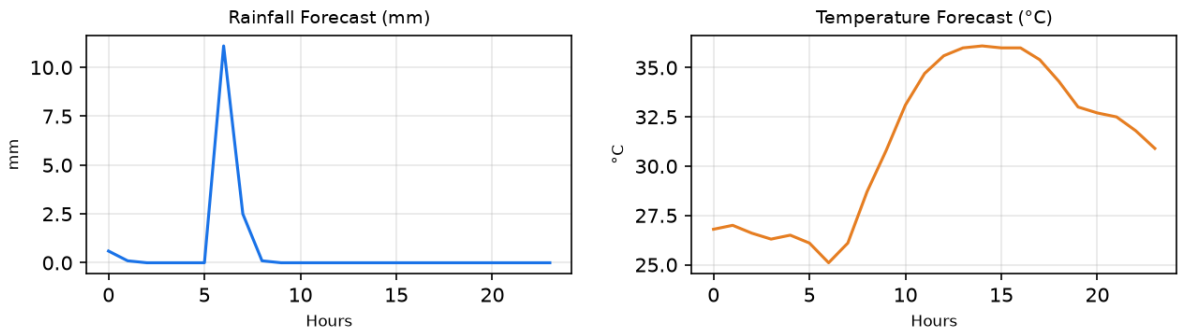

3. Disaster Risk Assessment & Prediction

Hazard	Current Risk	Prediction
Flood	LOW	LOW
Earthquake	NONE	NONE
Volcano	NONE	NONE

Computed Risk Score: 2.22

4. 24-Hour Forecast Charts

5. Emergency Response Summary

Risk levels are low. The emergency response system is on standby and was not activated for this analysis.

6. Recommendations

- Low flood risk detected: remain cautious of localized flooding, especially in low-lying zones.
- Stay tuned to official government and disaster management channels for updates.
- Keep an emergency kit ready with essential supplies, water, and medication.

7. Conclusion

Preparedness Level: Level 1 - Routine

Overall, Delhi is currently assessed at LOW disaster risk, corresponding to a preparedness level of Level 1 - Routine. Standard monitoring is sufficient. No immediate action is required, but stay informed. No emergency mobilization is currently required. Continued monitoring is advised as conditions may change. Stay safe and prepared.

Note: Where live OpenStreetMap coverage was insufficient for a resource category, this report supplements it with clearly-marked modeled estimates (see 'Src'/'Source' columns above) so response planning is not left with gaps.
