6. Recommendations

- Moderate earthquake activity detected: stay alert for aftershocks and avoid unsafe or older structures.
- Nearest hospital identified: Simpang General Hospital — North (1.7 km away) — keep this location on hand.
- Follow the recommended safe evacuation route, proceeding via: Start, then SafeZone1, then SafeZone2.
- Stay tuned to official government and disaster management channels for updates.
- Keep an emergency kit ready with essential supplies, water, and medication.

7. Conclusion

Preparedness Level: Level 2 - Elevated

Overall, Simpang is currently assessed at MEDIUM disaster risk, corresponding to a preparedness level of Level 2 - Elevated. Heightened readiness advised. Monitor conditions closely and prepare contingency plans. Emergency response resources have been identified and are detailed in this report. Continued monitoring is advised as conditions may change. Stay safe and prepared.

Note: Where live OpenStreetMap coverage was insufficient for a resource category, this report supplements it with clearly-marked modeled estimates (see 'Src'/'Source' columns above) so response planning is not left with gaps.
